BE BOLD BE BIRMINGHAM

Birmingham is the second largest city in the UK with a population of 1,144,900 1.1m people (according to the 2021 Census). The City is approximately 103 square miles and is divided into 69 wards.

There are 10 Parliamentary Constituencies that make up the City. This is a profile of the Parliamentary Constituency of Hall Green. This profile brings together data from a wide range of sources to enable a richer understanding of local areas. Parliamentary Constituencies group together and map onto ward boundaries. The Parliamentary Constituency of Hall Green, includes the following wards:

1) Sparkbrook & Balsall heath East
2) Balsall Heath West
3) Sparkhill
4) Moseley
5) Hall Green North
6) Hall Green South

Hall Green Constituency also includes small output areas of Billesley and Brandwood & King's Heath but a larger area of these two wards sits in Selly Oak Constituency. For the purposes of data analysis these small output areas have been omitted.

BE BOLD BE BIRMINGHAM

Section 1: Demographics

The demographics of the parliamentary constituency are illustrated to show basic information about who lives in the ward. Some data is from the 2011 Census but will be updated when the results of the 2021 Census are published by the Office for National Statistics (publication is expected to be Autumn 2022). Other data is from the 2017 mid year estimates from the Office of National Statistics.

This section includes a breakdown of ethnicity and age groups by ward.

BE BOLD BE BIRMINGHAM

Ethnicity (2011 Census)

Population breakdown by Ethnicity: **Birmingham**

- White — 57.9%
- Mixed — 4.4%
- Asian — 26.6%
- Black — 8.9%
- Other — 2.0%
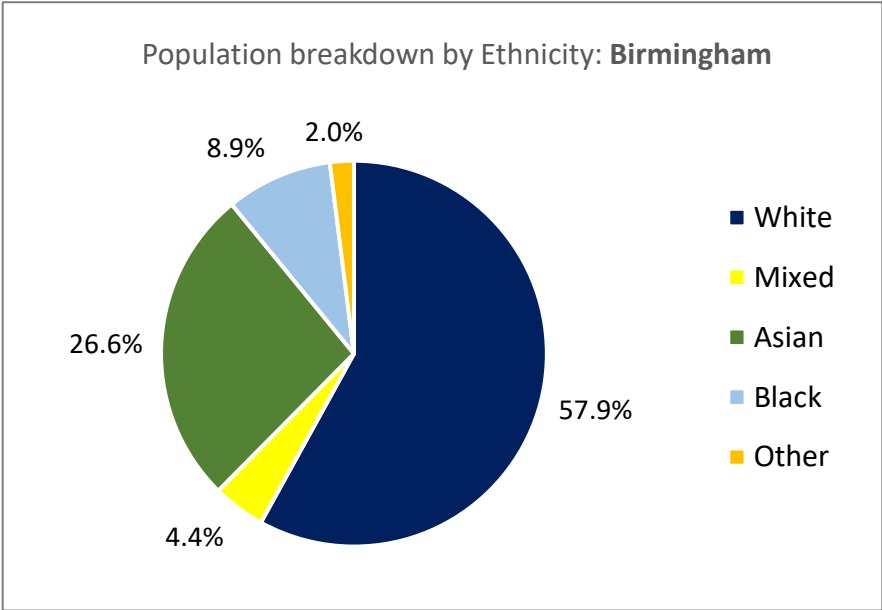

Total Population: 1,073,045 (in 2011)

Population breakdown by Ethnicity: **Hall Green Constituency**

- White — 35.5%
- Mixed — 3.8%
- Asian — 49.5%
- Black — 6.1%
- Other — 5.0%
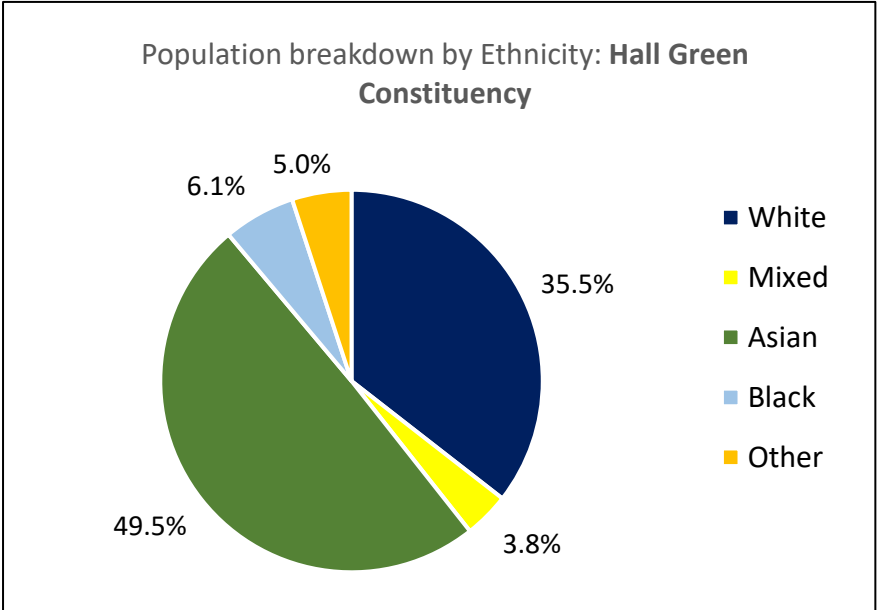

Total Population: 115,904 (in 2011)

BE BOLD BE BIRMINGHAM

It is estimated that there are approximately 120,130 people living in Hall Green constituency (ONS 2017 mid-year estimates) which is just over 10.6% of the total population of Birmingham. Of these 50.5% are male and 49.5% are female. 68% of the constituency population are under 45 years old.

BE BOLD BE BIRMINGHAM
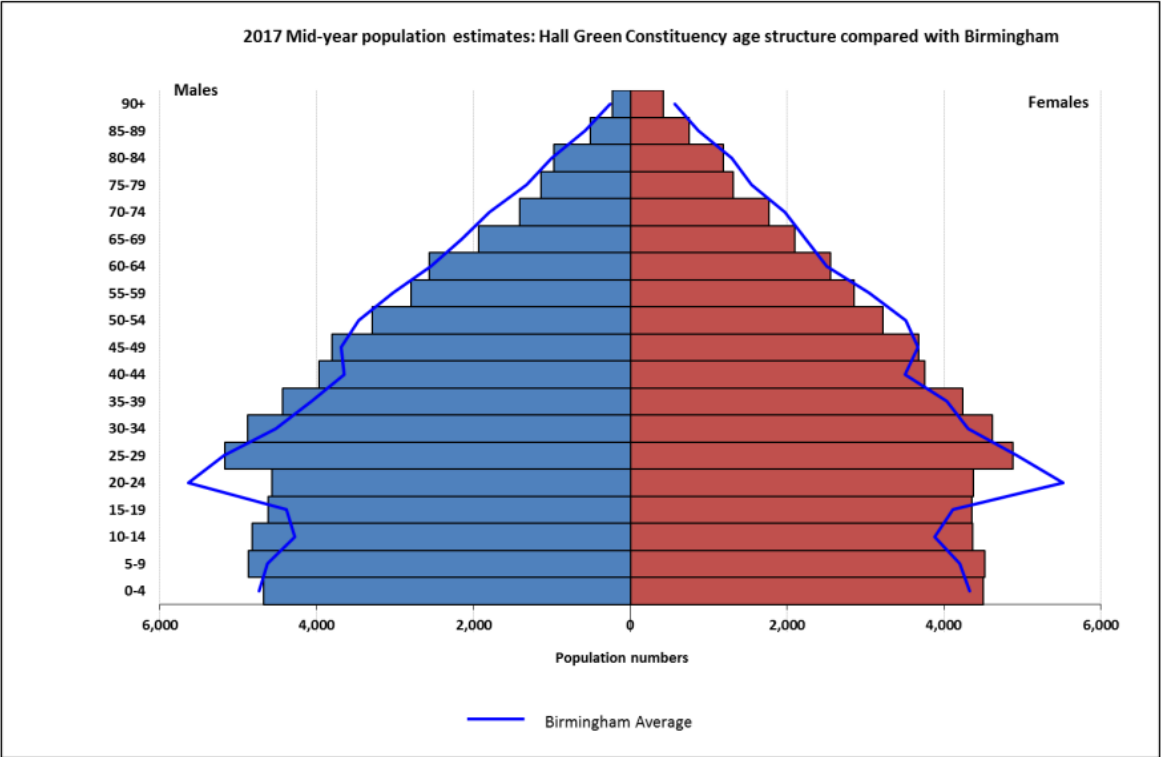

Section 2: Deprivation

This section provides an understanding of relative deprivation in a ward across three different dimensions: overall deprivation, deprivation affecting children, and deprivation affecting older people. All data are for 2019.

- The **Index of Multiple Deprivation (IMD)** is a measure of deprivation at a local area level across England. The index reflects a basket of measures covering 7 domains which are: Income, Employment, Education, Skills and Training, Health and Disability, Crime, Barriers to Housing and Services and Living Environment.

- The **Income Deprivation affecting Children Index (IDACI)** measures the proportion of all children aged 0 to 15 living in income deprived families.

- The **Income Deprivation Affecting Older People Index (IDAOPI)** is the proportion of all those aged 60 or over who experience income deprivation, defined as adults aged 60 or over receiving a form of Income Support such as Universal Credit and Pension Credit.

The indices are ranked 1-10, known as "deciles". A score of 10 puts the ward in the 0-10% least deprived in the country and a score of 1 put the ward in the 0-10% most deprived in England.

Section 4: Education

This section provides details of pupil numbers and educational attainment at secondary school for the ward based on academic year 2018/19 for those children attending Birmingham state schools. The data is based on pupils living in the ward and attending a Birmingham school.

The following data are presented:
- The number of pupils that live in the ward who are in year 11 (the final year of Secondary School)
- The proportion of disadvantaged pupils resident in the ward
- The average attainment 8 score for pupils who live in the ward
- The average attainment 8 score for disadvantaged pupils who live in the ward

BE BOLD BE BIRMINGHAM

Section 4 Continued: Education Definitions

Attainment 8 measures pupils' attainment across 8 qualifications taken at the end of secondary school, including:
- Maths (double weighted) and English (double weighted, if both English language and English literature are sat)
- 3 qualifications that count in the English Baccalaureate (Ebacc) measures
- 3 further qualifications that can be GCSE qualifications (including EBacc subjects) or technical awards from the DfE approved list
- Further guidance can be found here: [Secondary accountability measures guidance Feb 2020 (publishing.service.gov.uk)](#)

**Disadvantaged pupils** include one of the following
- Eligible for free school meals for at least one period in the last 6 years (eligibility on census day)
- Looked after continuously for 1 day or more and aged 4-15
- Adopted from care

BE BOLD BE BIRMINGHAM

Children attending a state-funded Birmingham school living in the selected ward. Does **not** include:
1) Children living in Birmingham attending a school outside of Birmingham
2) Children living outside of Birmingham that attend a Birmingham School
3) Children living in Birmingham who attend an independent setting

Data source: School level performance tables 2019

BE BOLD BE BIRMINGHAM

Proportion of Disadvantaged Pupils by ward (2019) (Residence of pupils)

Graph shows the proportion of disadvantaged children who took GCSEs in Year 11 living in the selected ward. NB: Data for lowest wards are suppressed i.e. there are fewer than 5 disadvantaged children (only Sutton Trinity). Does not include children living outside of Birmingham. Birmingham average = 44%

BE BOLD BE BIRMINGHAM

Attainment 8 scores by overall ward (2019)

Children attending a state-funded Birmingham school living in the selected ward. Birmingham Average = 46.6. National Average = 46.8
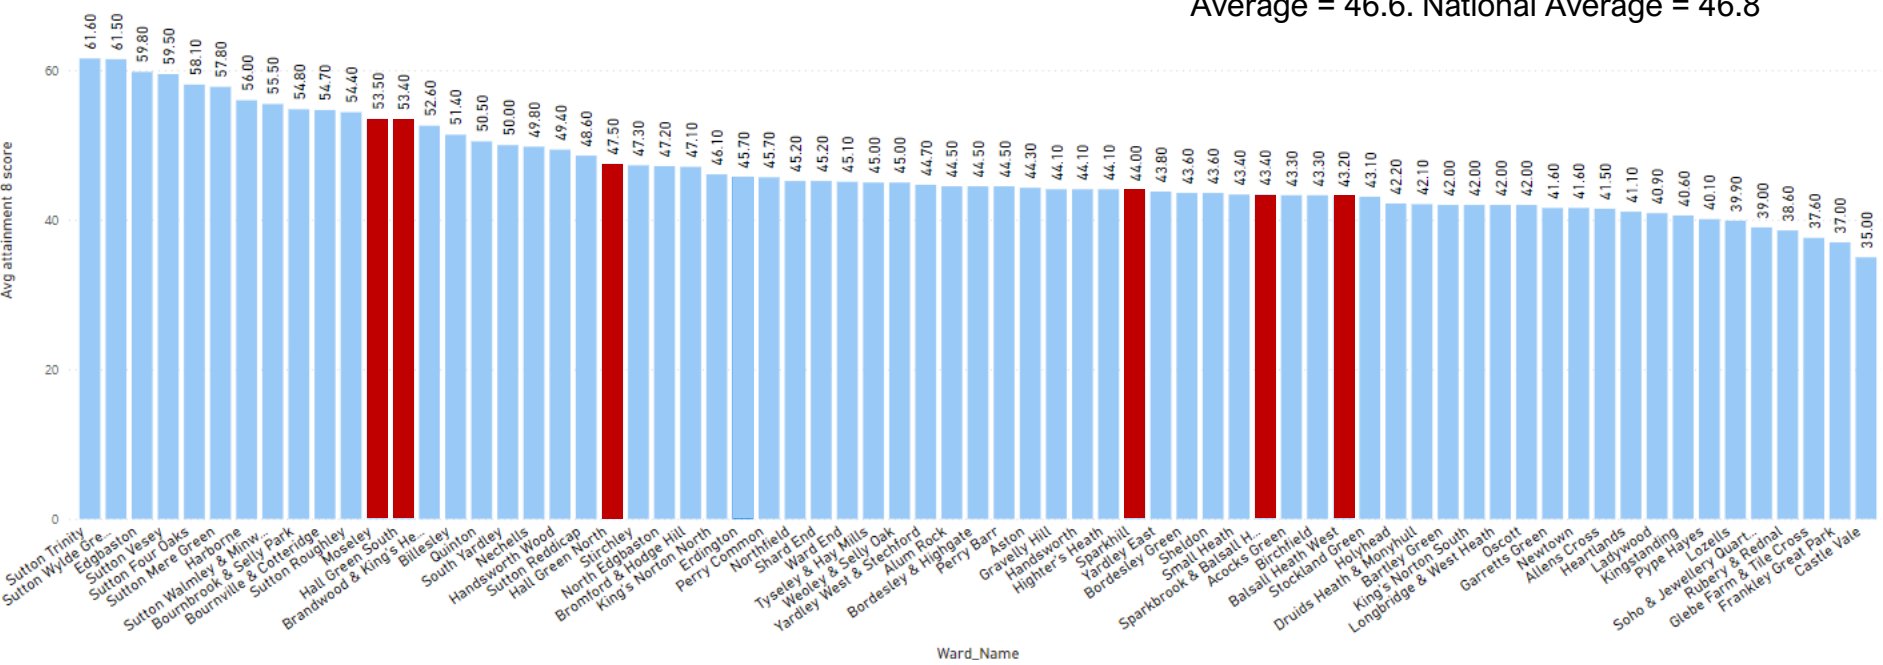

Attainment 8 scores of Disadvantaged Pupils by ward (2019)

Disadvantaged children attending a state-funded
Birmingham school living in the selected ward.
Birmingham Average = 40.2. National Average = 36.8.

BE BOLD BE BIRMINGHAM
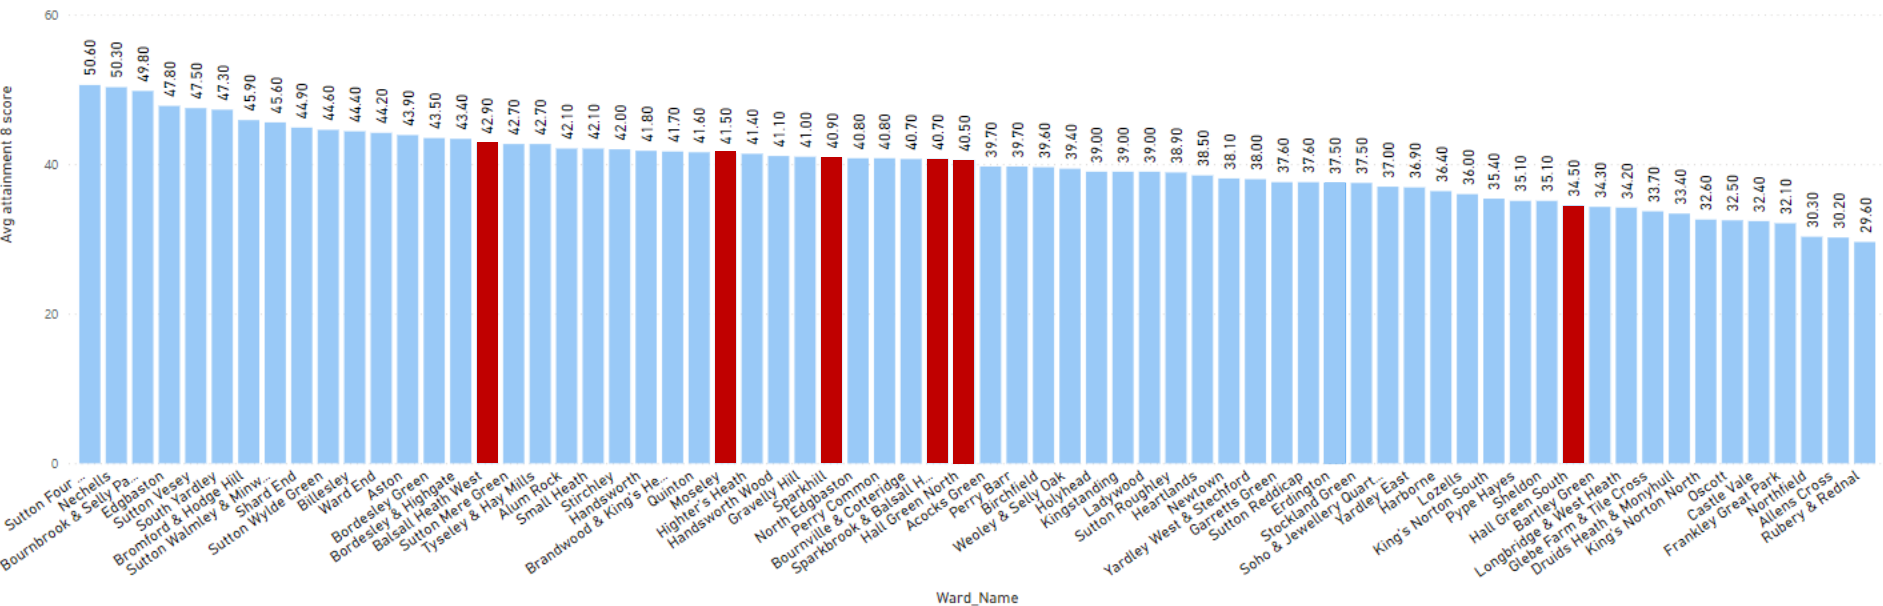

Section 5: Health & Wellbeing

This section illustrates:
- Life expectancy at birth for both females and males comparing the ward to the Birmingham and England averages.
- Deaths from stroke for residents of each ward, compared with the Birmingham and England averages
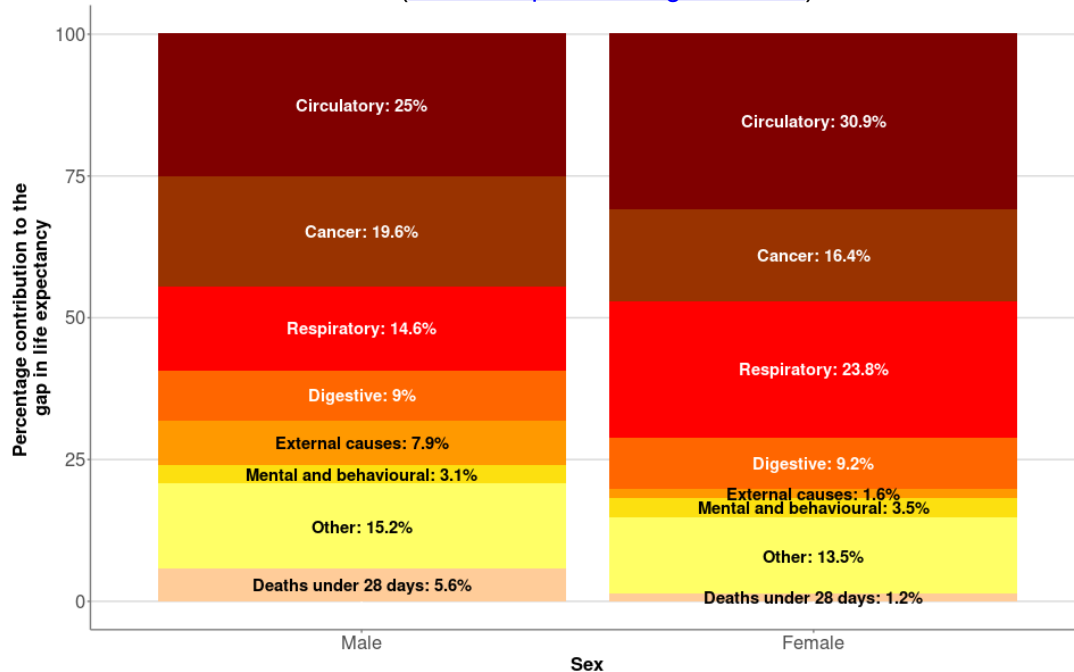

BE BOLD BE BIRMINGHAM

Life Expectancy

Life expectancy is a measurement of the average length of life and is the best overarching indicator of the health of the population.

Life expectancy in Birmingham is lower than the national average for men and women (see following slides).

Within the City there is a 10.8yr gap for men and a 7.8yr gap for women between our highest and lowest life expectancy wards.

The gap is driven mainly by premature death due to circulatory diseases, respiratory disease and cancer within the city. Higher infant mortality is also a big cause of the gap between Birmingham and England.
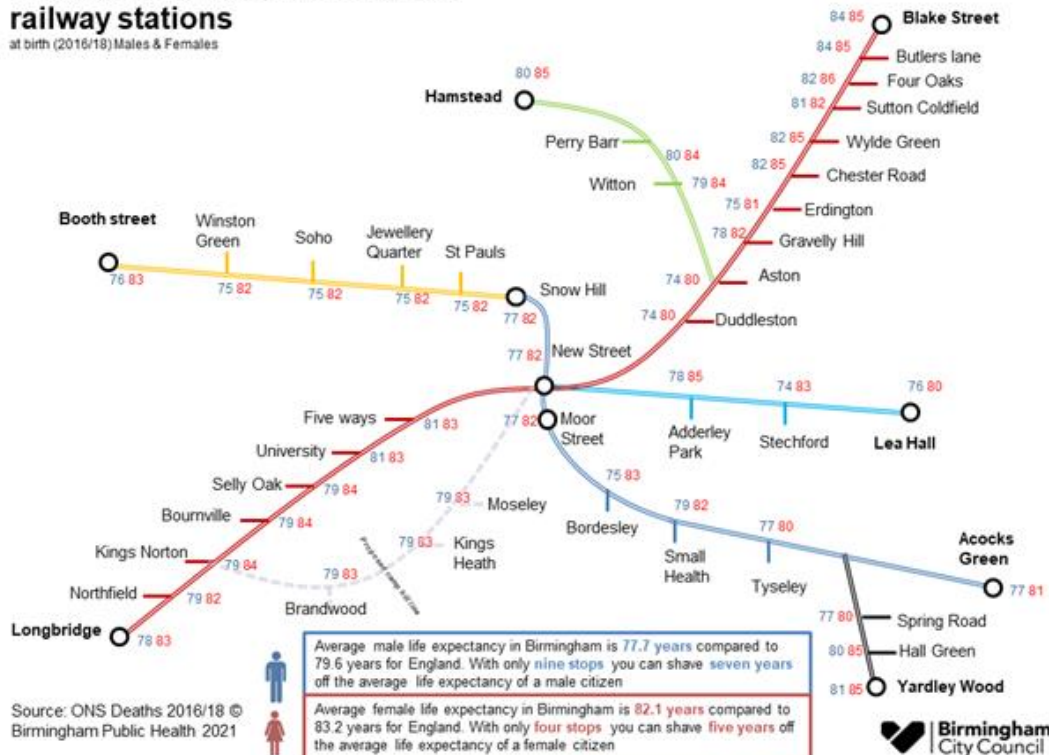

Scarf chart showing the breakdown of the life expectancy gap between the most deprived quintile and least deprived quintile of Birmingham, by broad cause of death, 2015-17 (OHID Inequalities Segment Tool)

BE BOLD BE BIRMINGHAM

Life Expectancy by Birmingham railway stations
at birth (2016/18) Males & Females

Source: ONS Deaths 2016/18 © Birmingham Public Health 2021

Average male life expectancy in Birmingham is 77.7 years compared to 79.6 years for England. With only nine stops you can shave seven years off the average life expectancy of a male citizen

Average female life expectancy in Birmingham is 82.1 years compared to 83.2 years for England. With only four stops you can shave five years off the average life expectancy of a female citizen

Deaths from stroke at all ages

This graph shows the number of deaths per year from stroke for ward residents of all ages, compared with Birmingham overall and England. The measure used is called the Standardised Mortality Ratio or SMR. The lower the score, the lower the death number of deaths from stroke each year.

Section 6: Unemployment

This section contains details of claimant rates for different forms of benefits provided by central government to support those that are unemployed or on low incomes. The rates presented here do not represent all of those that are out of work – some people who are not working will not be claiming any benefits.

The data presented are:
- Proportion of working-age residents (age 16-64) claiming unemployment benefits in 2021-22
- Proportion of young people (age 18-24) claiming unemployment benefits in 2021-22
- Number of working-age residents and young people claiming unemployment benefits in 2021-22

Section 7: Environment

This section contains information on the environment of the ward, the section currently contains information showing how accessible greenspace is to residents.

- The specific indicator presented a Greenspace Accessibility Index (the lower the score the greater the accessibility to open/greenspace).
- The indicator measures access to greenspace within 1000m.
- All wards below the average line have better access than the average and all wards above the average line have less access.

Section 8: Community Safety

This section contains data relating to community safety in the ward. It currently illustrates the number of Anti-Social Behaviour cases that were enforceable by the council in 2021.
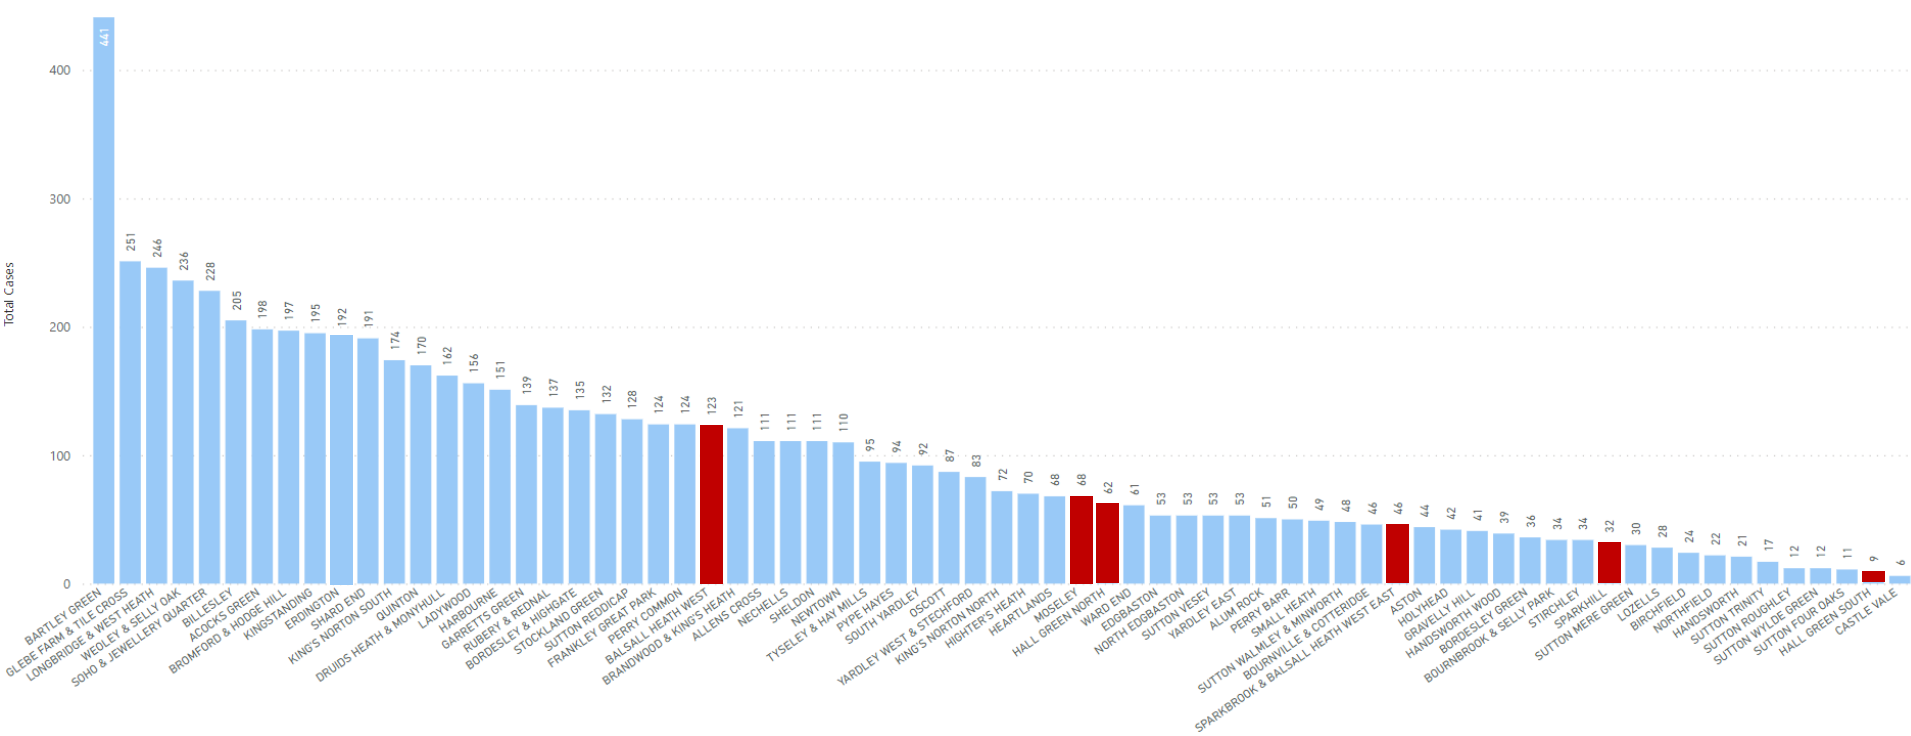

Anti-social behaviour is defined as behaviour which involves *"acting in a manner that causes or is likely to cause harassment, alarm or distress to one or more persons not of the same household"*.
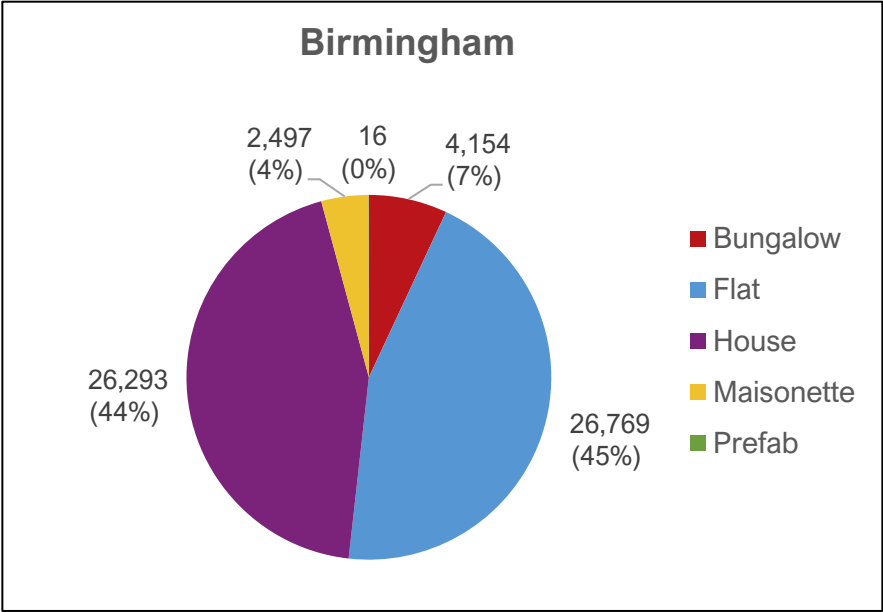

Section 9: Housing

This section contains data relating to council owned housing stock. Specifically it includes information on:

- Breakdown of housing stock types and quantity
- Comparison of Sheltered and Non-sheltered accommodation
- Breakdown of accommodation type and number of bedrooms
- Trend of properties sold under the Right to Buy scheme
- Tenure type of constituency housing stock
